

Calculation Sheet for Residential Envelope Transmittance Value						
Table A						
Location:		Choose the Wall and Window materials from the Problem sheet and enter the thermal coefficient values accordingly				
Climate:			Wall	Window	Glazing	
a:		Material				
b:		U-Value				
c:		SHGC	x			
Latitude:		PF	x			
Table B: Calculate the Envelope areas and enter into the specific direction as per the building plan given in the Problem sheet						
Side	Wall	Window	Glazing	Total Area	Orientation Factor (ω)	
North / North-West						
East / North-East						
South / South-East						
West / South-West						
Table C: Wall and U-Value Parameter (A.U.OF)						Total Envelope Area
Side	Area	U-Value	OF	Wall Value		
North / North-West						
East / North-East						
South / South-East						
West / South-West						
Total Wall U-Value Parameter					C	
Table D: Window U-Value Parameter (A.U.OF)						
Side	Area	U-Value	OF	Window Value		
North / North-West						
East / North-East						
South / South-East						
West / South-West						
Total Window U-Value Parameter					D	
Table E: Glazing U-Value Parameter (A.U.OF)						
Side	Area	U-Value	OF	Glazing Value		
North / North-West						
East / North-East						
South / South-East						
West / South-West						
Total Glazing U-Value Parameter					E	
Table F: Window SHGC Parameter (A.SHGCeq. OF)						
Side	ESF_{total}	SHGC_{Unshaded}	SHGC_{eq}	Area	OF	Window Value
North / North-West						
East / North-East						
South / South-East						
West / South-West						
Total Window SHGC Parameter						F
Table G: Glazing SHGC Parameter (A.SHGCeq. OF)						
Side	ESF_{total}	SHGC_{Unshaded}	SHGC_{eq}	Area	OF	Glazing Value
North / North-West						
East / North-East						
South / South-East						
West / South-West						
Total Glazing SHGC Parameter						G
Total Envelope Area:						
			Total Value	a,b,c	Multiplication	
Total Wall U-Value Parameter			Table C	a		
Total Window and Glazing U-Value Parameter			Table (D+E)	b		
Total Window and Glazing SHGC Parameter			Table (F+G)	c		
Add Total Multiplication Values:						
Residential Envelope Transmittance Value
